

Evacuation from a PDS OCONUS to a Safe Haven in the CONUS while in the CONUS on Authorized Leave (JTR, par. 060205.B, Table 6-17)

Note: Rates used in these examples may not be current and are for illustrative purposes only.

The following apply to safe haven evacuation allowance computations:

- For the first 30 days, each dependent aged 12 or older is authorized a safe haven evacuation allowance limited to the full locality per diem rate. For the first 30 days, each dependent under age 12 is authorized a safe haven evacuation allowance limited to 50 percent of the locality per diem rate.
- Beginning on the 31st day, the safe haven evacuation allowance is up to 60 percent for a dependent aged 12 or older and up to 30 percent for a dependent under age 12 of the applicable locality per diem rate, unless otherwise authorized in Chapter 6.
- A lodging receipt is required for reimbursement of lodging expenses. No itemization or receipts are required for M&IE.

Scenario

A Service member, his or her spouse, and one child over age 12 were in a location in the CONUS on authorized leave (either COT or FEML) from July 25 to August 15 when a dependent evacuation was ordered effective August 1 from the Service member's PDS OCONUS where the dependents were command-sponsored. The Service member contacted the command at the PDS and was directed to return. The Service member departed the leave point to return to the PDS on August 3. The dependents were determined to already be at a safe haven and were authorized safe haven evacuation allowances at that location beginning on August 16, the date the dependent would have returned to the Service member's PDS had the evacuation not prevented the return. The Service member's spouse and child stayed in the home of the spouse's parents. The maximum locality per diem rate for the location in the CONUS at that time was \$192 (136/\$56). No lodging allowance is reimbursed when a dependent stays with a friend or relative.

Calculating Evacuation Allowance for Service Member's Dependents from PDS OCONUS to a Safe Haven while on Authorized Leave in the CONUS

Action	Lodging	M&IE	Total
1. Determine the maximum daily entitlement for Service member's spouse (100%) for the first 30 days at the safe haven.	\$136	\$56	\$192
2. Determine the maximum daily entitlement for a child, aged 12 or older (100%), for the first 30 days at the safe haven.	\$136	\$56	\$192
3. Determine the maximum total daily amount for the two dependents for the first 30 days at the safe haven.	$\$136 + \$136 = \$272$	$\$56 + \$56 = \$112$	$\$272 + \$112 = \$384$

Per Diem, Travel, and Transportation Allowance Committee (PDTATAC)

Action	Lodging	M&IE	Total
4. Determine the actual total daily amount reimbursed for two dependents for the first 30 days at the safe haven, by taking the lesser of Actual Lodging vs. Maximum Lodging and adding the Maximum M&IE. Note, this should not exceed the maximum amount in Action 3.	\$0 vs. \$272, \$0 is the lesser.	\$112	\$0 + \$112 = \$112
5. Determine the actual total amount reimbursed for the dependents for the first 30 days at the Safe Haven by multiplying the actual total daily amount in Action 4 by 30.	\$0	\$112	(\$0 + \$112) x 30 = \$3,360
6. Determine the maximum total daily entitlement for Service member's spouse (60%) starting on the 31st day at the safe haven.	60% of \$136 = \$81.60	60% of \$56 = \$33.60	\$81.60 + \$33.60 = \$115.20
7. Determine the total daily entitlement for Child, aged 12 or older (60%) starting on the 31st day at the safe haven.	60% of \$136 = \$81.60	60% of \$56 = \$33.60	\$81.60 + \$33.60 = \$115.20
8. Determine the maximum total daily amount for the two dependents starting on the 31st day at the safe haven.	\$81.60 + \$81.60 = \$163.20	\$33.60 + \$33.60 = \$67.20	\$163.20 + \$67.20 = \$230.40
9. Determine the actual total daily amount for the two dependents starting on the 31st day at the safe haven, by taking the lesser of Actual Lodging vs. Maximum lodging and adding the M&IE. Note, this should not exceed the maximum amounts shown in Action 8.	\$0 vs. \$163.20 \$0 is the lesser	\$67.20	\$0 + \$67.20 = \$67.20
10. Finally, determine the total reimbursed amount for the two dependents for the second 30 days at the safe haven by multiplying the total daily amount for the two dependents from Action 9 by 30 and add the actual total daily reimbursed amount for the first 30 days from Action 5.	N/A	N/A	(\$67.20 X 30) +\$3,360 = \$5,376
